

# OUR DRIVING FORCE

How nice it would be if, in addition to bonuses, honorary titles and state awards, the best employees in their profession were recognized. Our newspaper would first of all award Elena Puzynina and Igor Lapenko the corporate title «JINR Photographer».

Each of their photographs is a journey into the world of the scientific team, heated discussions, visits, conferences and business trips.

Unfortunately, only some of the photographs are used in the JINR Press Office reports or newspaper articles and those, as a rule, are official. In the archives, sometimes forever, there remain photographs in which Directorate of the Institute of all ranks, employees and guests of JINR are captured not «buttoned up», but at the moments of joy of meetings, experiences, passionate convictions – moments of manifestation of that creative force that drives our Institute forward.
